Building high quality, high performance boards is something we have done for over 60 years.

Hobie Alter’s genius and innovation has helped shape and change an entire global culture of water sports enthusiasts. From sailing to surfing to kayaking, Hobie Alter’s creations have made being on the water easier and more enjoyable.

As an industry leader in board manufacturing since 1950, Hobie has established an innate knowledge of what it takes to make a high quality product and the right combination of materials to do it. With established production facilities in Dana Point, California, Hobie Stand Up Paddleboards has been on the developmental forefront of the stand up paddle industry since its early beginnings in 2006.

Hobie has continued the innovative tradition with our lineup of stand up paddleboards. Utilizing and bringing together proven board and boat building technologies, Hobie has developed a spectrum of stand up paddleboards to fit almost every paddler’s needs.

BOARD CONSTRUCTION
A board’s construction is almost as important as its shape and is selected based on strength, weight, price and most importantly performance. From our molded constructions that ensure strength and consistency of shape to our high-performance lightweight gravity laminations. We look at each board series independently, and select the best suited construction.

STRENGTH-WEIGHT-PRICE RATIO (S-W-PR)
Below is our S-W-PR scale that will help you find the board and construction that best meets your needs. All of our boards are very strong and light. All fin boxes, handles, hold downs and leash plugs are installed into high density foam for extra strength in all of our molded boards.

Classic and approachable, the ATRv3 series is one of the best all-around recreational boards. In its third generation, this series showcases versatility, form, and function. Novice or expert, child or adult, the ATRv3 provides an unforgettable experience for everyone.

**ATRv3 SERIES**

A board designed for any occasion

**VENTURE SERIES**

True multi-use boards that deliver in all conditions

Experience the thrill of these multi-use boards—racing, touring, surfing and distance; you will never have to choose just one. The Touring Series, designed for the all-around paddler, handles it all. Whether you’re headed upwind, downwind, on flat waters or through side chop, these boards perform exceptionally in a variety of conditions.
Inflatable SUP Roller Bag, 2 Phase Pump with Gauge, EXP 3-piece Paddle (not included with Ascend Race Inflatable Models), Repair Kit

STAND UP PADDLE STABILITY SYSTEM
An innovative system developed by Hobie, the S3 control plates provide additional stability and rigidity in key areas of the board, providing a superior paddling experience yet maintaining optimal portability.

KIT INCLUDES:
Inflatable SUP Roller Bag, 2 Phase Pump with Gauge, EXP 3-piece Paddle (not included with Ascend Race Inflatable Models), Repair Kit
A high performance series for serious SUP surfing

The Colin McPhillips Series of boards are designed to perform when and where you need it the most. The designs promote responsiveness in the pocket and speed in the flats when the time is right. From the high performance pulled in shape of the Pro models, to the more forgiving longboard inspired shape of the CMLB Comp. The Colin McPhillips series of boards will never leave you short of thrills.

Nosara, Costa Rica
3° 58’ 47.04” N 85° 38’ 55.05” W
CORKY SERIES

A performance surfing SUP designed by Corky Carroll

The Corky Series of boards are performance surfing SUPs. With extra width for added stability, these high performance boards are designed to be ridden by anybody, beginner to expert. The best of both worlds, these SUPs surf like a mid-size surfboard but with the flexibility of a full size SUP.

La Saladita, Mexico

Corky Carroll - US Surfing Champion 1966, 67, & 69
The Hobie Performance Lab is where we push the boundaries of what is possible. Drawing from decades of board shaping and laminating experience, combine that with modern day material and computer aided design technology. The lab produces some of the highest performing custom boards on the market today.

Each board that is produced in the lab is a handcrafted high performance work of art, that has an identity all its own.

Collaborations are important in an ever changing high performance world. It’s where, as designers, we can think out of the box. Where we are not bound to industry norms or pre-determined factory specs. Hobie has teamed up with renowned paddle maker Quickblade to offer high performance paddles to match any of our custom made Performance Lab boards. A perfect combination of high performance design and function. Each board and paddle are built to “YOUR” custom specifications.

**HOBIE QUICKBLADE MATCHSTICKS**
Collaborations are important in an ever changing high performance world. It’s where, as designers, we can think out of the box. Where we are not bound to industry norms or pre-determined factory specs. Hobie has teamed up with renowned paddle maker Quickblade to offer high performance paddles to match any of our custom made Performance Lab boards. A perfect combination of high performance design and function. Each board and paddle are built to “YOUR” custom specifications.

**HOBIE QUICKBLADE PERFORMANCE SERIES PADDLES**
Hobie has established a design collaboration with renowned paddle maker Quickblade to design a high performance series of paddles. Each paddle in the series was designed around a need for increased form, function, and performance.

- **HQ-SURF**
  - A performance influenced surf design. The HQ-Surf caters to everything desired in a surf paddle.
  - 90 sq/in Blade area
  - 8° Blade angle
  - 18.5” Blade length
  - 7.5” Blade width
  - 50/50 Round Carbon/FRP shaft
  - Standard Carbon Handle

- **HQ-PERFORMANCE**
  - Designed to perform in all conditions and across all ability levels.
  - 90 sq/in Blade area
  - 10° Blade angle
  - 18.75” Blade length
  - 7.5” Blade Width
  - 50/50 Round Carbon/FRP shaft
  - Standard Carbon Handle

**HOBIE RECREATIONAL SERIES PADDLES**
An ergonomically designed handle for maximum comfort and control.

- **Recreational Series - Round**
  - Designed to be light, quick, stiff, and comfortable with a bit of snap.
  - Dihedral blades incorporate a center spine and a 11 degree blade angle translating into the perfect combination of stiffness, strength, control and power.

**HANDLE**
- 50/50 Round Carbon/FRP shaft

**BLADES**
- 52 oz / 1.5 kg
- 50/50 Round Carbon/FRP shaft

**DESIGN**
- Designed by Quickblade’s Jimmy Terrell, the new H-Blade features a newly designed swept V section that creates a double dihedral for enhanced stability.
- The 80 sq/in blade allows for optimal power and comfort across all ability levels.
- Constructed with Hobie’s CLK construction the blade is lightweight and responsive.
- 10/20 round carbon fiberglass shaft

**CLK Lamination utilizes Technora, a space age aramid fiber that is 5 times stronger than steel. Woven in a proprietary cross link pattern, the use of this material in paddle lamination provides a paddle that is lightweight and responsive.**

**HOBIE RECREATIONAL SERIES PADDLES**
An ergonomically designed handle for maximum comfort and control.

- **Recreational Series - Round**
  - Designed to be light, quick, stiff, and comfortable with a bit of snap.
  - Dihedral blades incorporate a center spine and a 11 degree blade angle translating into the perfect combination of stiffness, strength, control and power.
