RIDING THE MIRAGE ECLIPSE IS AS EASY AS WALKING. JUST STEP ON AND GO.
Stand tall on the water aboard the Eclipse, another world's-first watercraft from Hobie. Incredibly stable, just step on and go using MirageDrive® leg power. Soon you’ll fly high at exceptional speed, nimbly carving turns using fingertip steering controls. There’s minimal setup. Go from the car, the dock or your boat to the water in minutes. Cruise solo, with your partner or with a group. The Eclipse takes fitness out of the gym and onto the water and under the sun. The board is lightweight and durable and full of thoughtful features such as gear tie-downs and a carefree kick-up rudder. The Eclipse takes standup to a whole new level.
CHECK OUT THE FEATURES THAT MAKE THE HOBIE MIRAGE ECLIPSE A ONE OF A KIND WATERCRAFT:

MIRAGEDRIVE W/ GLIDE TECHNOLOGY
Hobie’s world-renowned hands-free MirageDrive propulsion – no paddle needed – has been perfected for the standup world. A natural stepping motion cycles the large topside pedals. The powerful underwater fins efficiently propel the Eclipse forward. Step out at an easy glide, effortlessly power into a headwind or pick it up for an all-out sprint. The Flow Fin 90s fold against the board for shallow water and beach landings. Quick and easy “Click and Go” installation and removal for transport and storage.

REMOVABLE KICK-UP RUDDER
The durable rudder offers pinpoint standup steering unique to the Eclipse. Chart a confident course – the Eclipse is equally at your command through tight twists and long straightaways. The rudder kicks up in the shallows to prevent damage; removable in moments for storage and transport. Locks into place as a tracking skeg if you choose to paddle.

HIGH-GRIP EVA DECKPADS
The large EVA deckpad provides carefree, high-traction footing and comfortable cushioning for all-day endurance. It extends all the way to the stern to protect the deck. It’s also a fine perch for extra gear or the family dog.

CARGO BUNGEE®
Take it with you, whether it’s a day bag, small pack or even camping gear. Aft deck Bungee tie-downs can also hold a cooler or accessory H-Crate securely in place.

QUICK SET ADJUSTABLE HANDLEBAR AND STEERING CONTROLS
The sleek aluminum alloy handlebar enhances balance and stability. There’s no need to hold on tight. The ride is reassuringly solid. Steering is at your fingertips, utilizing familiar and time-tested calipers. Squeeze right, go right. Squeeze left, go left. An adjustable clamp offers infinite handlebar height adjustment from 36 to 43 inches, accommodating a wide range of riders.

QUICK SET HANDLEBAR RECEIVER
When it’s time to hit the road or stow the Eclipse, the Adjustable Handlebar is removable in a snap. Drops quickly into place when you’re ready for your next trip; cam locks firmly in to the board. The rudder lines connect in seconds.

HIGH STRENGTH ADVANCED HULL DESIGN
The Eclipse harnesses 65 years of Hobie boardsports heritage for its quick and stable displacement hull design. The sleek bow pierces the water, enhancing speed and glide. A square tail and flat bottom add to the board’s steady, quiet ride.

OPTIONAL ACCESSORIES
Protect your Eclipse with a board bag, and make transportation to and from your car to the water a breeze. The cart is available with light duty wheels or sand tires. Attachable cup holder and universal phone mount are available to keep you refreshed and ready to capture every memory.
**ECLIPSE 10.5:**
CREW: 1
